

WSMA has secured an agreement with Rx Security to be the exclusive recommended supplier of Washington State Board of Pharmacy approved secure prescription pads, at discounted rates.

Rx Security has been a leading supplier of counterfeit-resistant prescription pads since 1989. With over 30,000 clients across North America, our focus is to design, develop and supply products that will assist medical professionals in protecting their patients against prescription drug abuse.

Security Features

All of Rx Security's prescription forms have numerous security features which meet and exceed Medicaid regulations. The security technology prevents reproduction and alteration of the original script thereby reducing fraud. Rx Security's features include, but are not limited to: a "VOID" appears on any reproduction, erasure-resistant background, security features box on back, micro-printed border, thermochromic ink and an artificial watermark.

Advantages

WSMA members are eligible for discounts off Rx Security's low pricing. **Member pricing for 20 one-part pads is only \$62.88 including shipping and set-up!** Rx Security also prides itself in excellent customer service, with a 100% customer satisfaction guarantee. Our friendly live customer service is a key component in our production of high quality products, as well as our fast set up and turnaround times.
